# Kardia

Kardia proviene de la palabra griega corazón; esta sección está dedicada a la demostración de las animaciones que he creado a través de los años, contiene mis mejores trabajos animados, evidencia de mi pasión por esta complicada pero hermosa rama del arte.

These animations are a part of my project called “Vapormoon”, these are a series of hybrid 2D/3D animations, inspired by the Vaporwave artistic movement.

**Software:**

- Adobe After Effects,
- Adobe Illustrator,
- Adobe Photoshop,
- Rough Animator.

Personaje: Moon

“Do You Poison?”, is a 2D animation that uses audio from the British Comedy series “Bruiser” , the animation was made 100% from scratch and took roughly 4 months to complete.

#### Software:

- Rough Animator
- Autodesk Sketchbook
- Flipaclip

Characters: Keleam and Cylax

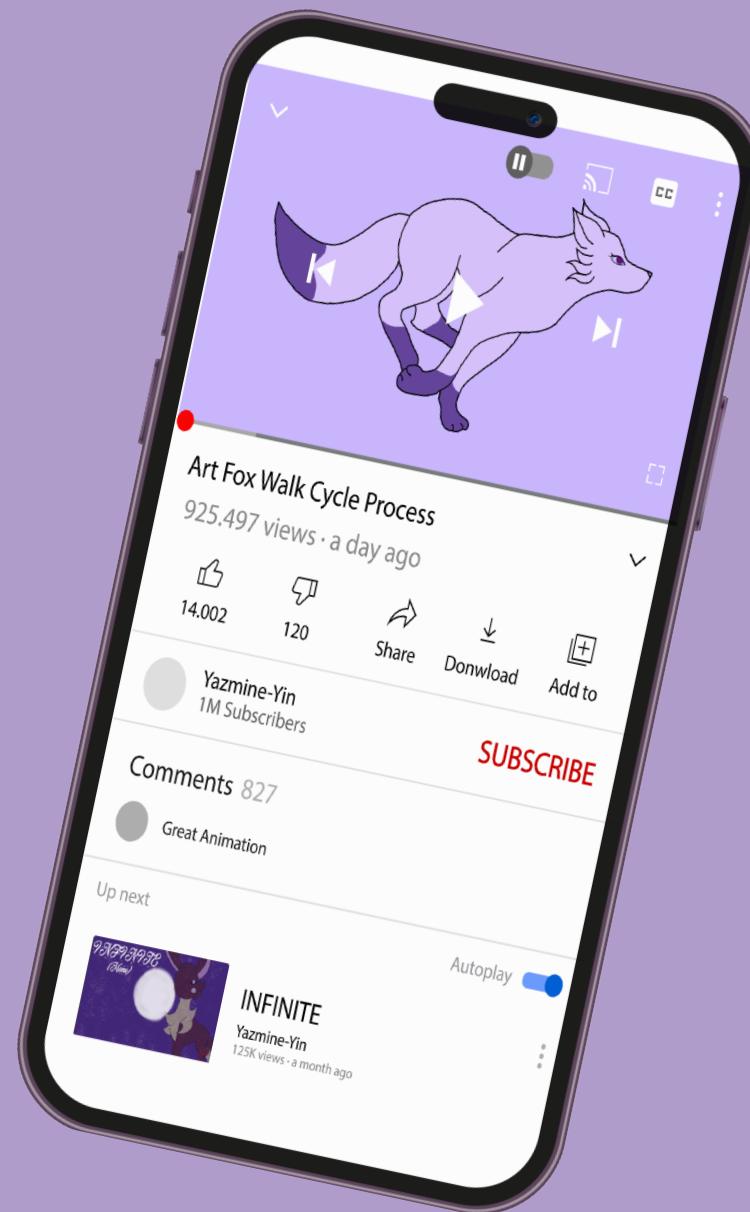

# DO YOU POISON?

(BRUISER Animated)

“Art Fox Walk Cycle Process” is a small animation test/example made specifically for this portfolio, it took roughly 6 hours to complete and features the character of Artfox.

**Software:**  
Rough Animator

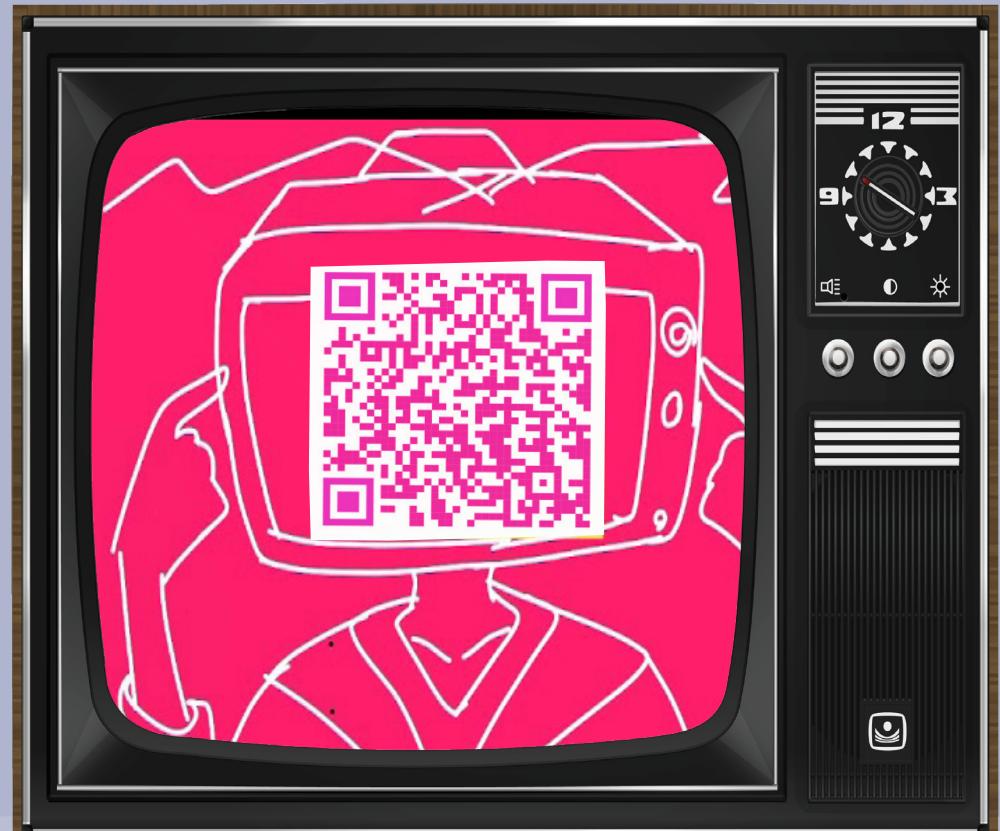

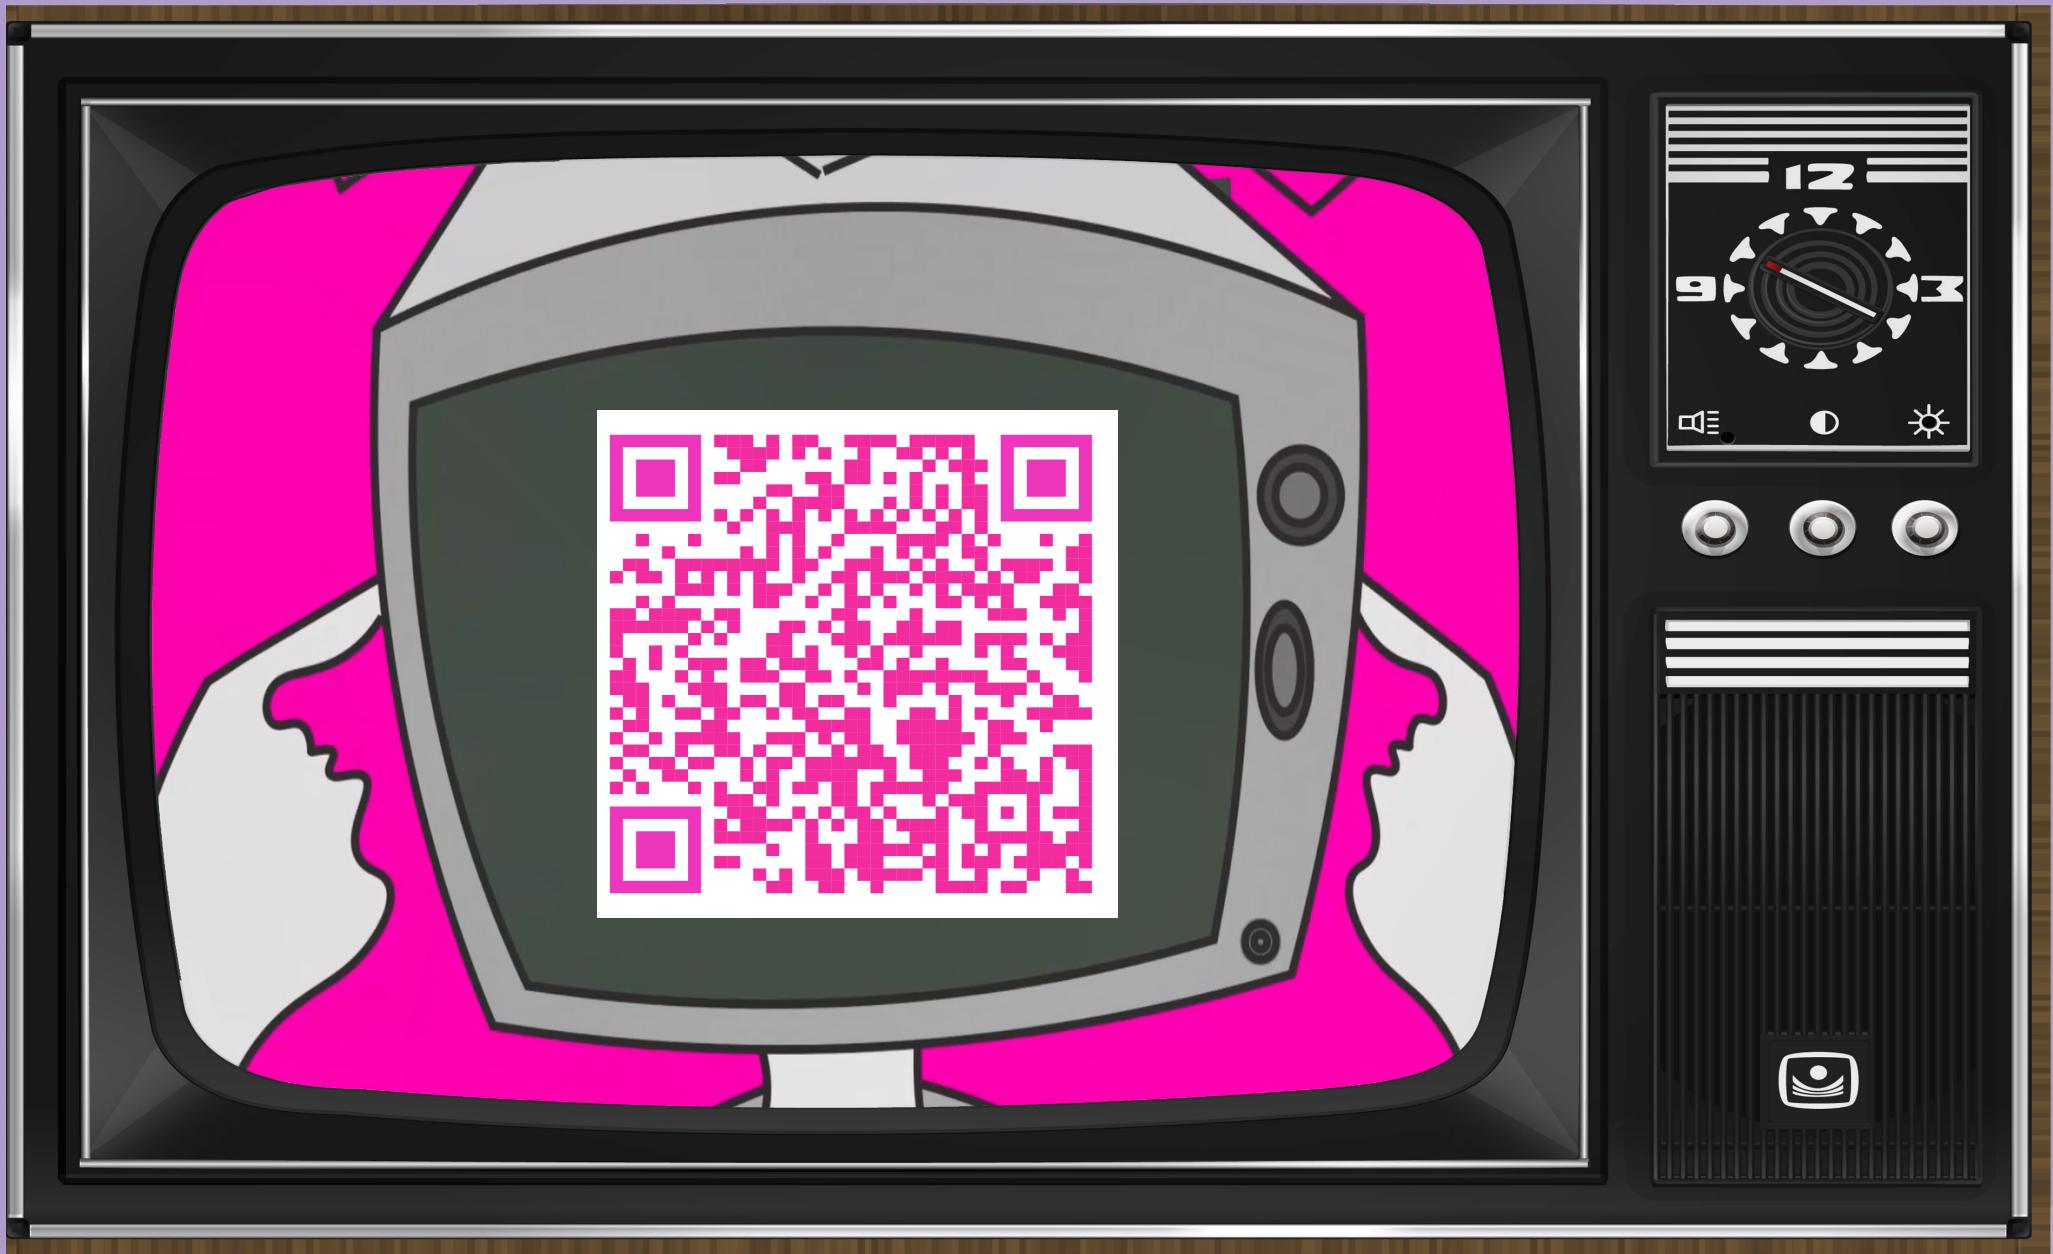

The following animations are bumpers made as part of an educational practice for the defunct tv channel TVX that was local in El Salvador, the network focussed mainly on otaku and gamer culture.

**Software:**

Adobe After Effects

Autodesk Sketchbook

# Myalo

Myalo el cual viene de la palabra griega menta; es una sección enfocada en la ilustración tanto digital como tradicional. Es un espacio dedicado a los proyectos mayores, los cuales solo pueden crearse al transferir ideas desde la mente al papel.

Inspired by the song, “Daydream in Blue” by The Gunter Kallmann Choir, this piece of multimedia artwork features the character of Ciel from my ongoing project Partners In Crime. The artwork is a mix of various traditional mediums including markers, paint and glitter.

The following are some of the characters I've designed for my Partners In Crime project.

**Software:**

Autodesk Sketchbook

Ciel

Leafidan

Seeker

Rhys

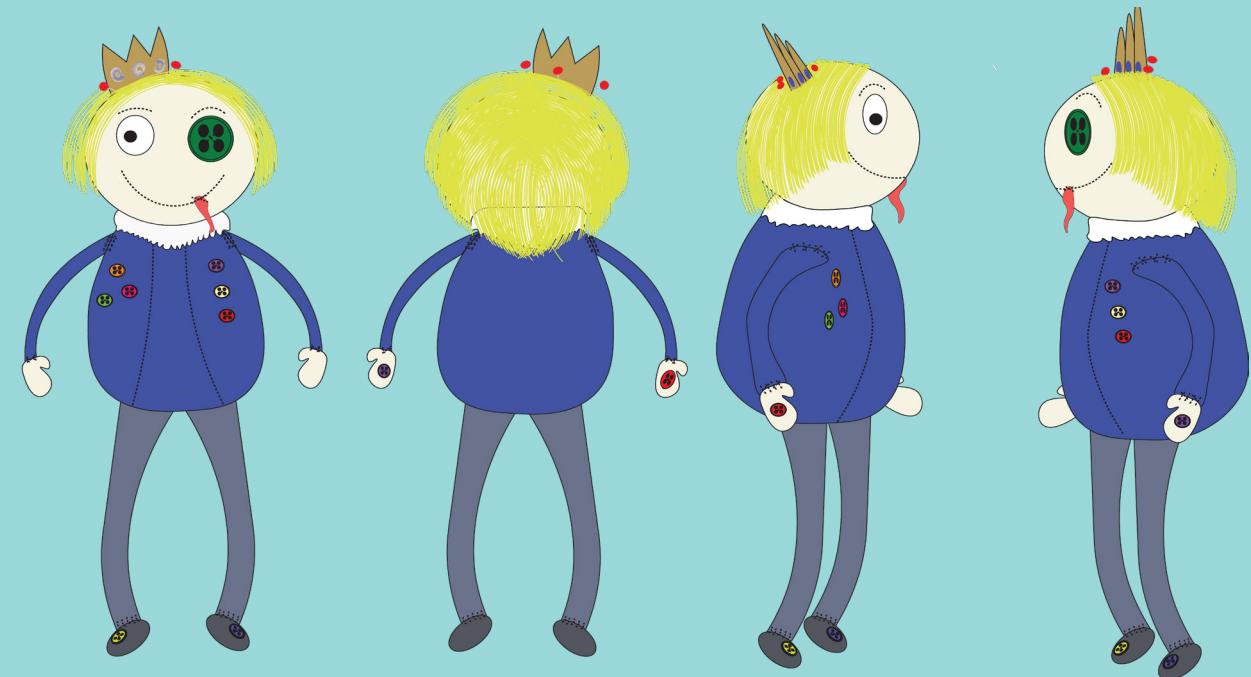

Lisk

Valka

These are one of the reference sheets I made for Botonito, a character from my illustrated children's book "The Cardboard Box Boy." Said story was written and illustrated by my person. It follows the story of a young boy called Robin as he faces his fears in order to reach his friend Botonito's house on the other side of the woods.

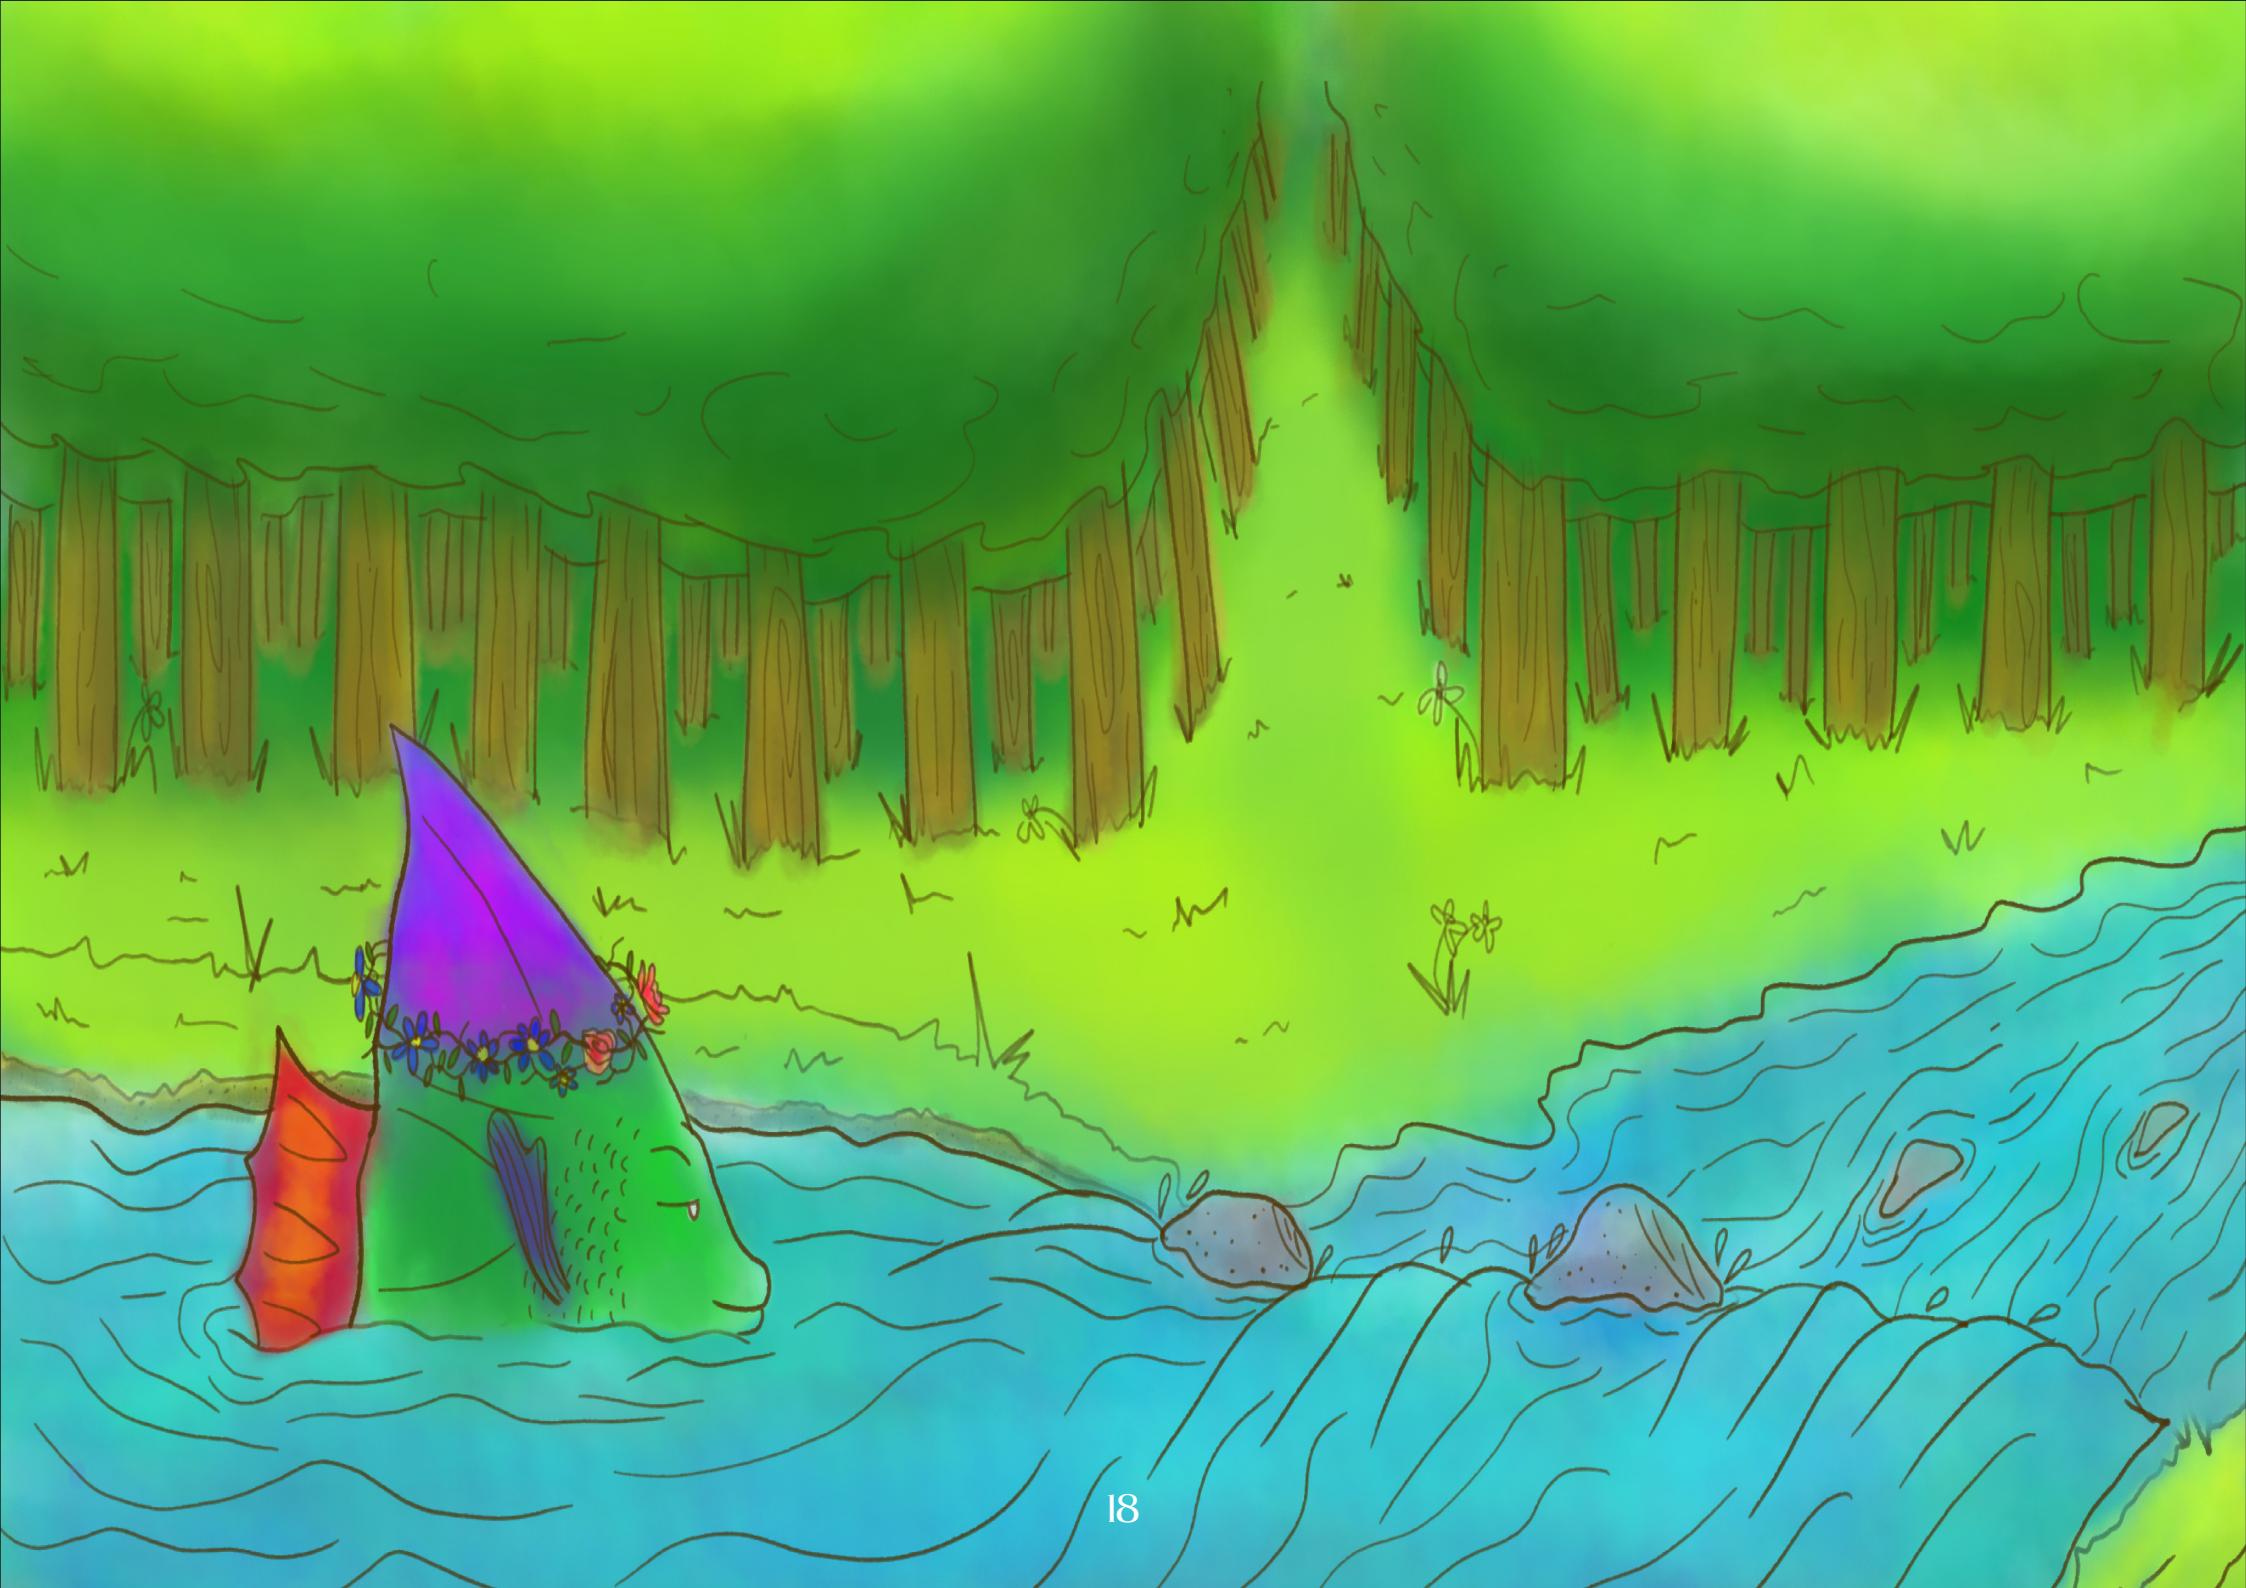

#### Software:

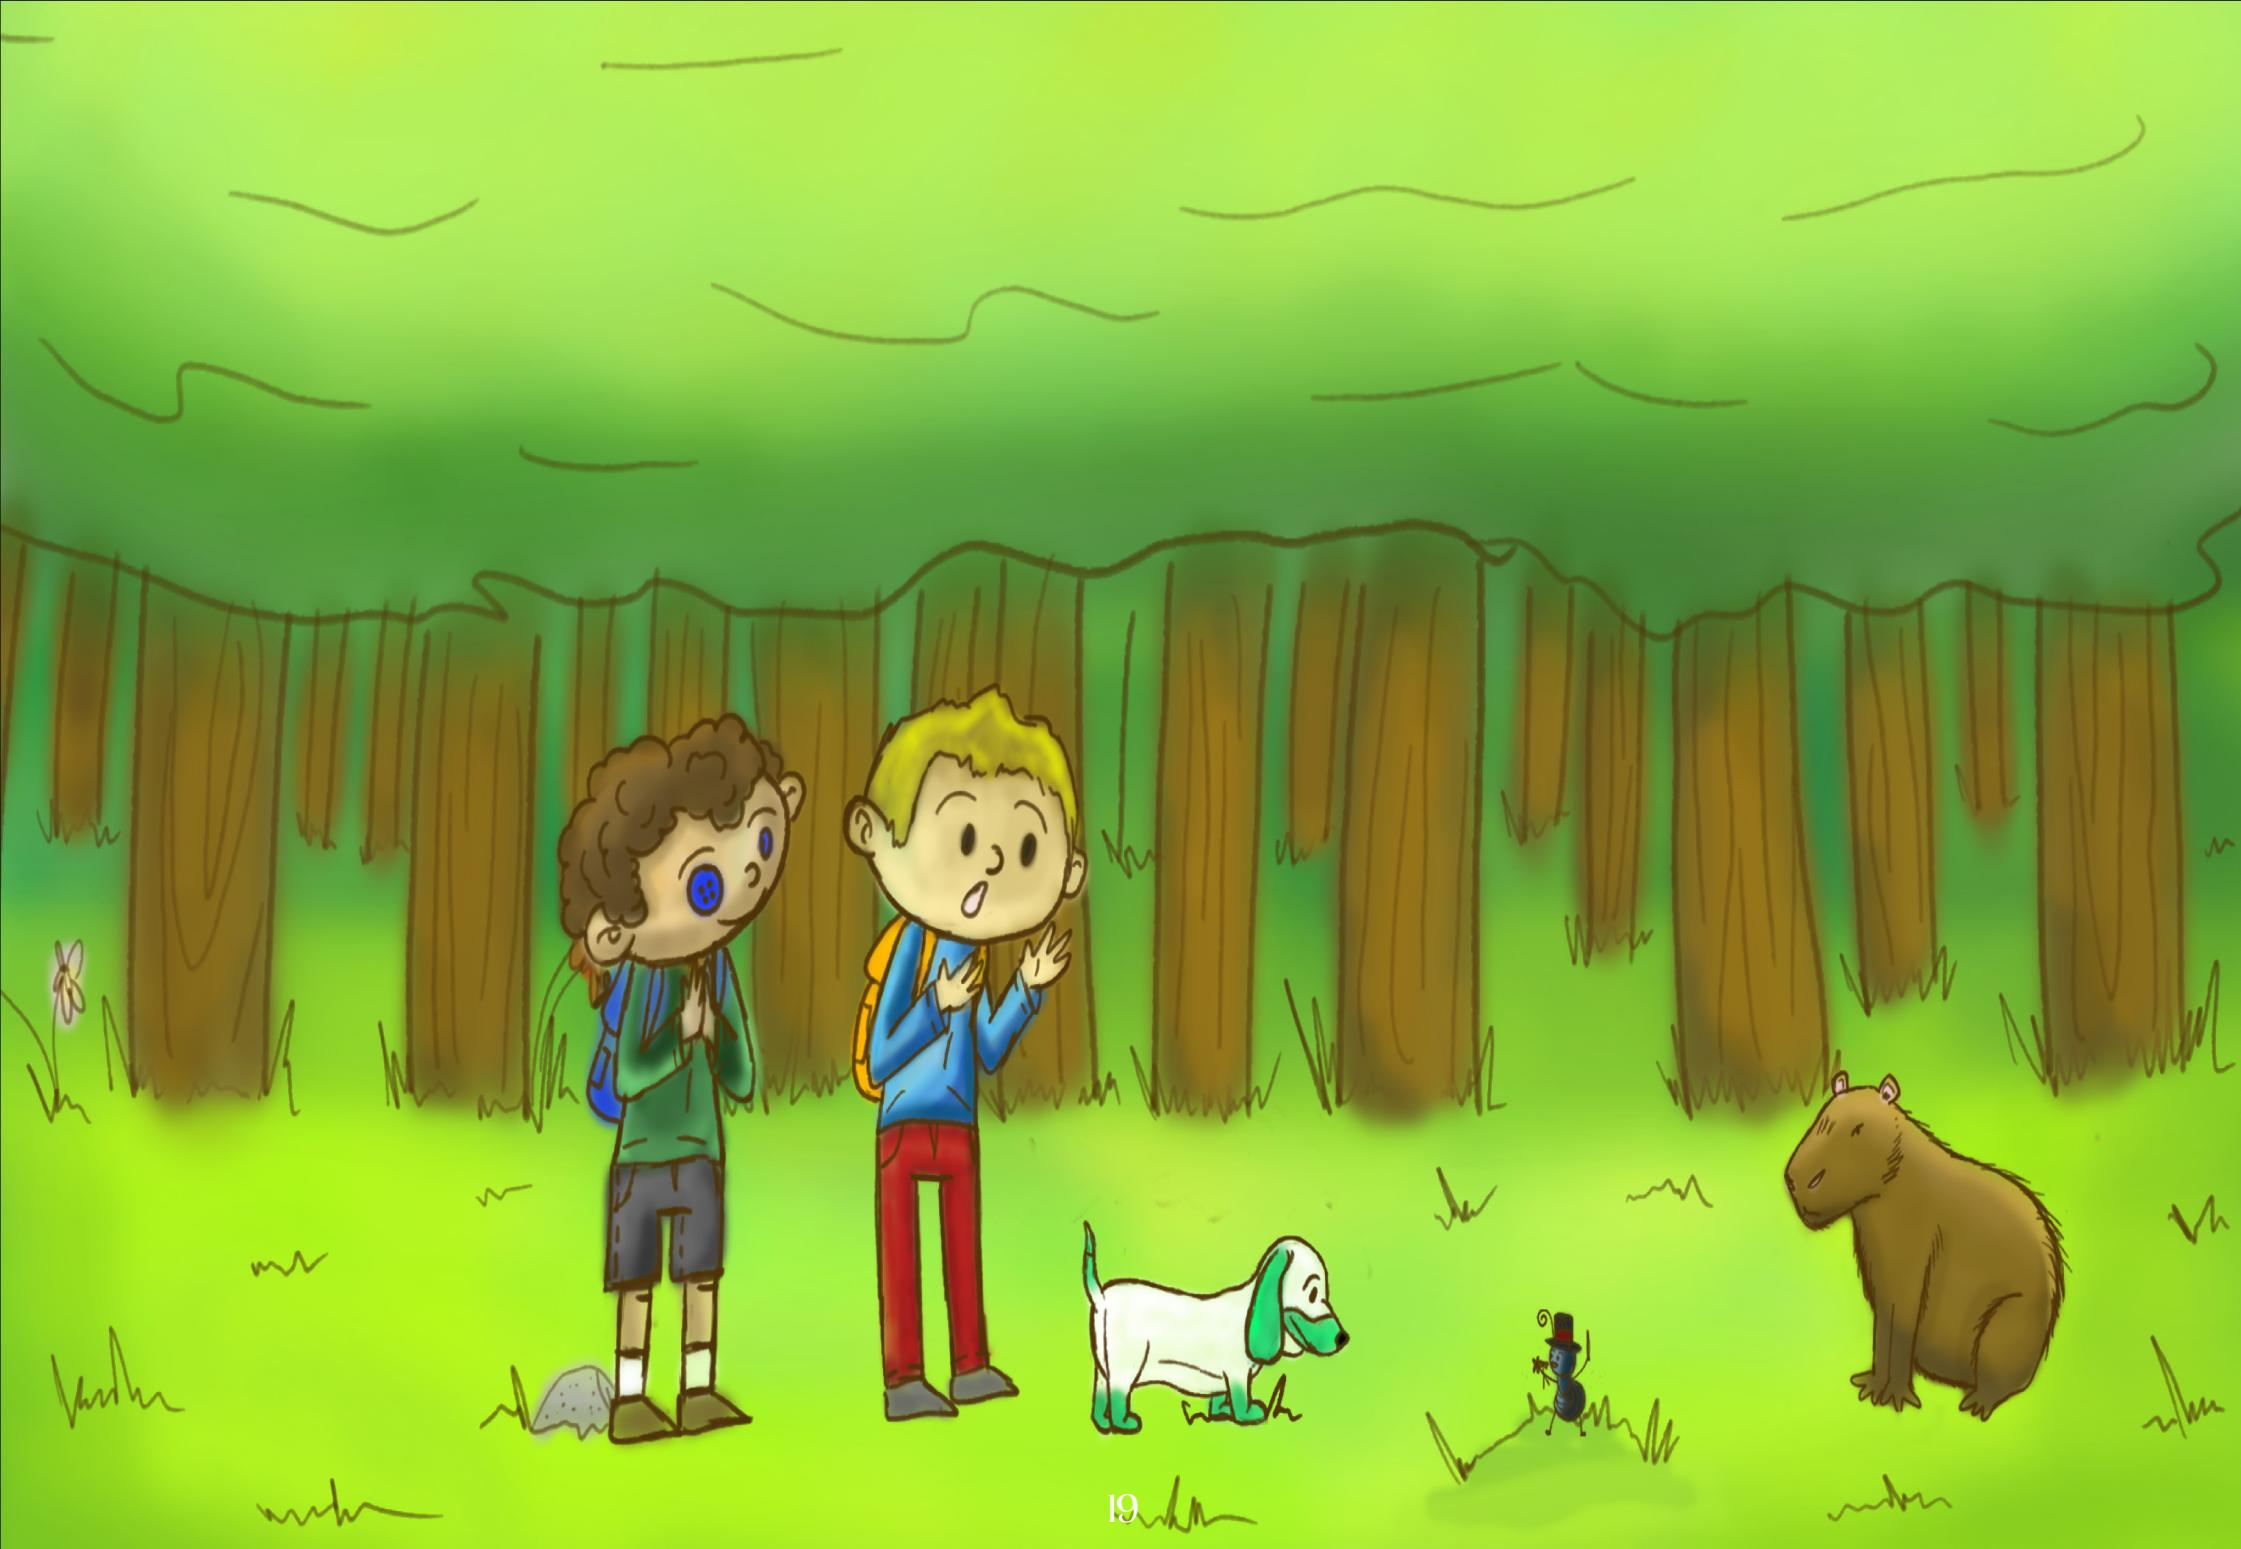

Adobe Illustrator  
Adobe Photoshop  
Adobe InDesign

Character: Botonito

As part of my Vapormoon project, I have created a variety of mixed medium ilustrations and art pieces that mix digital and tradicional teciques.

### Software:

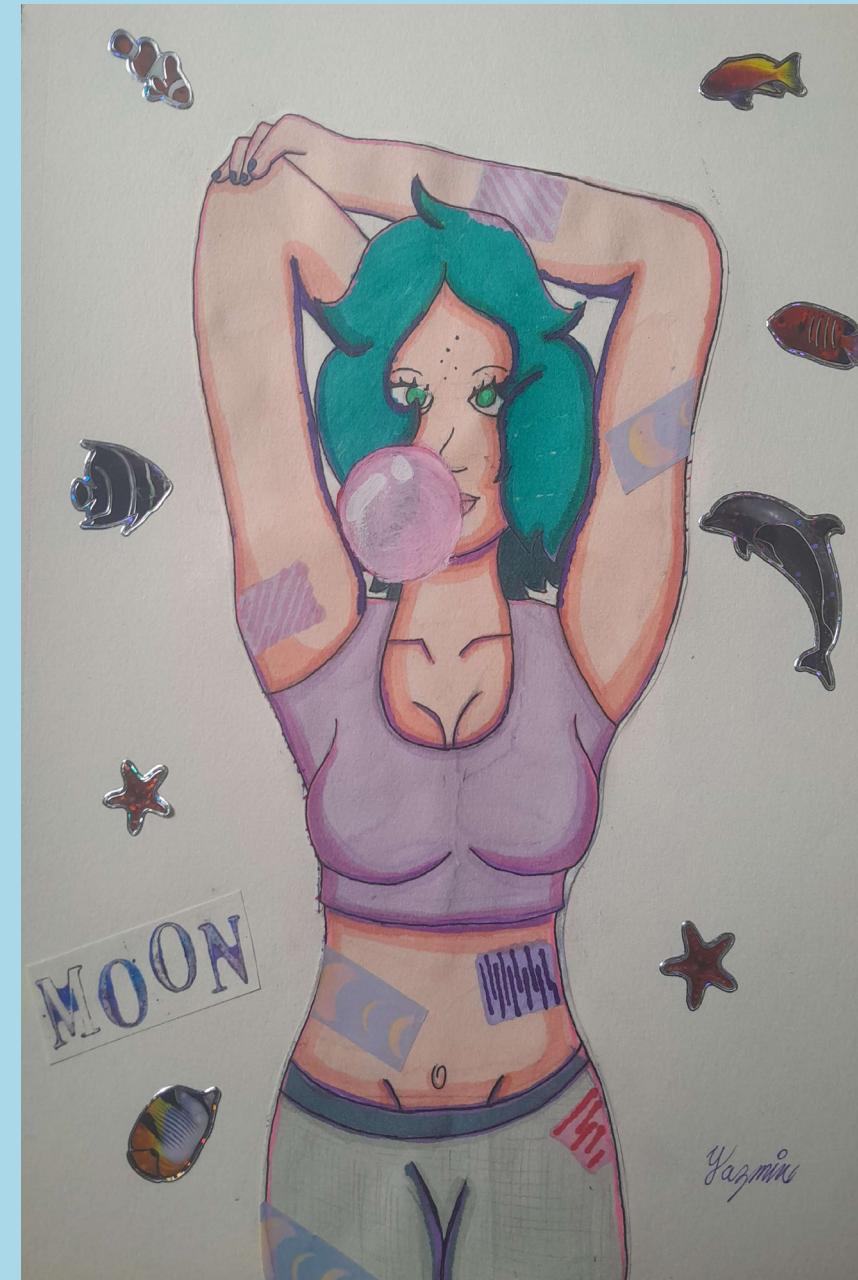

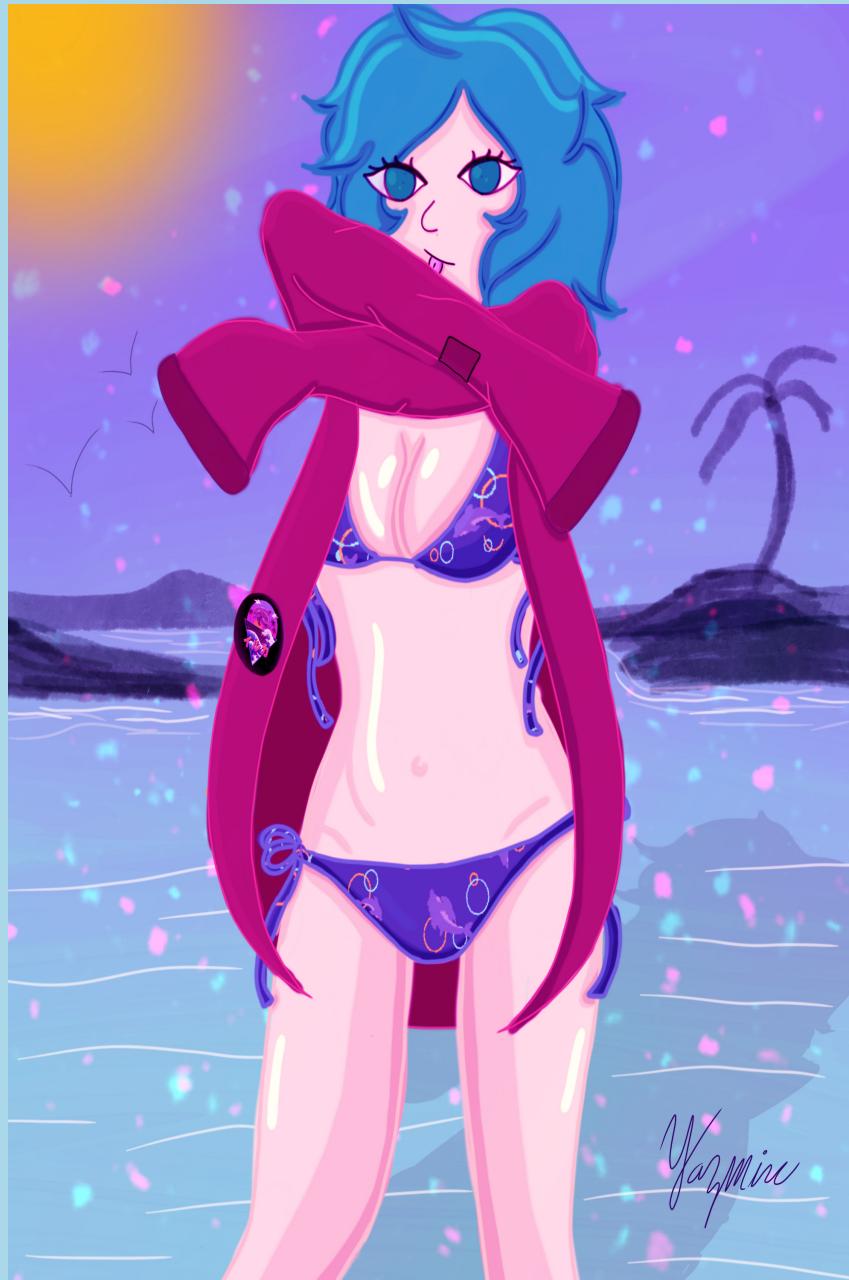

Adobe Illustrator

Adobe Photoshop

Autodesk Sketchbook

Character: Moon

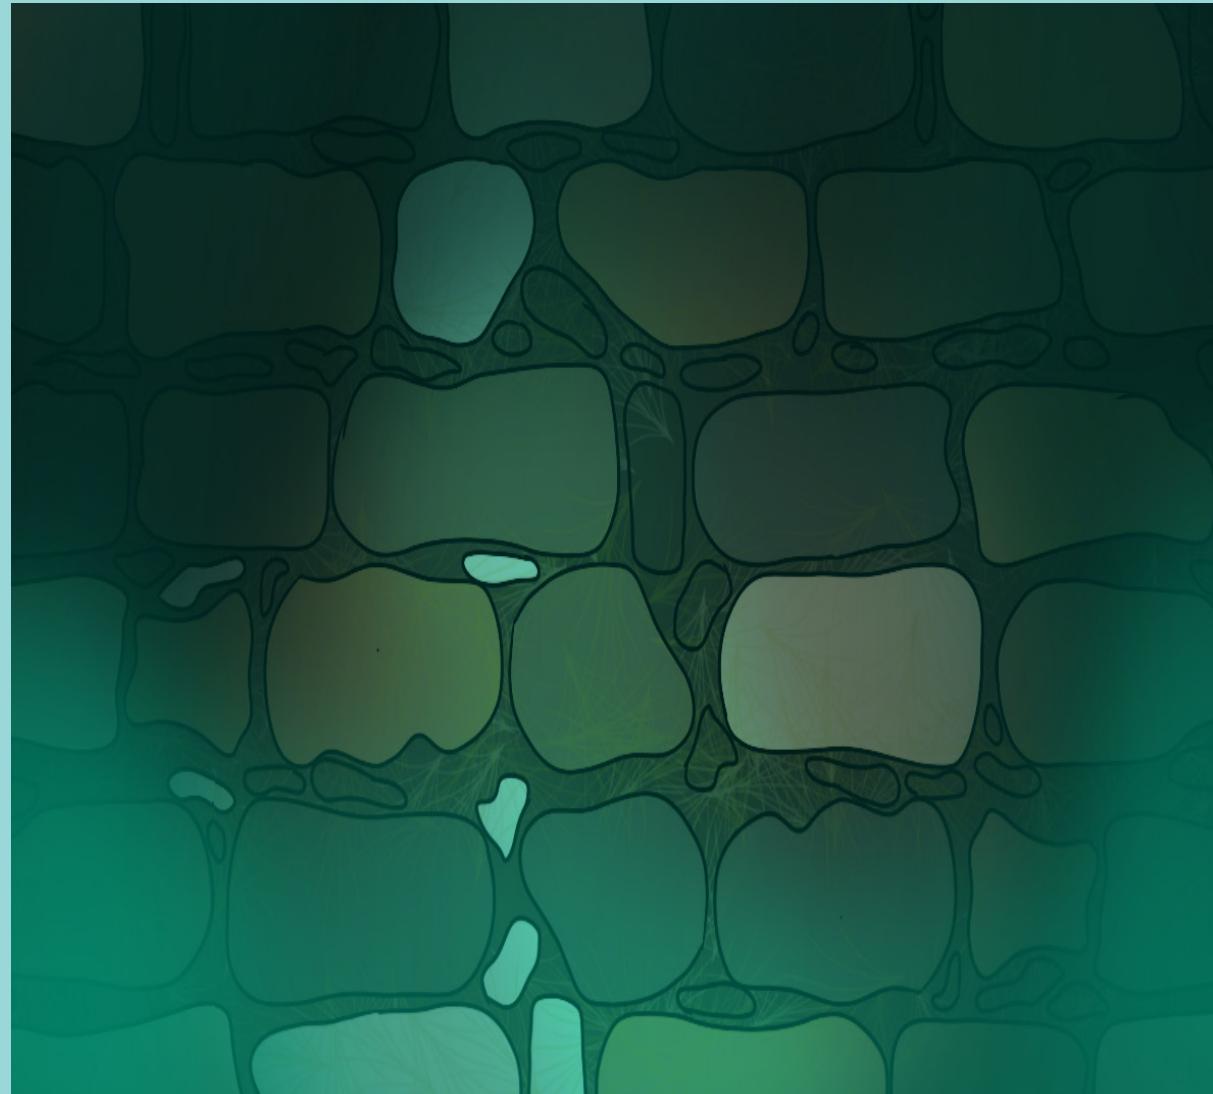

These illustrations are some examples of my work in background art and ambientation.

**Software:**

Autodesk Sketchbook

# Soma

Soma, palabra que en griego tiene significado de cuerpo, es el último apartado del portafolio. Está dedicada al diseño gráfico en general, desde la publicidad, los carteles, los flyers, los logotipos, entre otros. Es la base de mi carrera y lo que he aprendido durante mis estudios.

The following are Misc. Illustrations that have been made for shirt, notebook, poster and other related promocional material design.

**Software:**

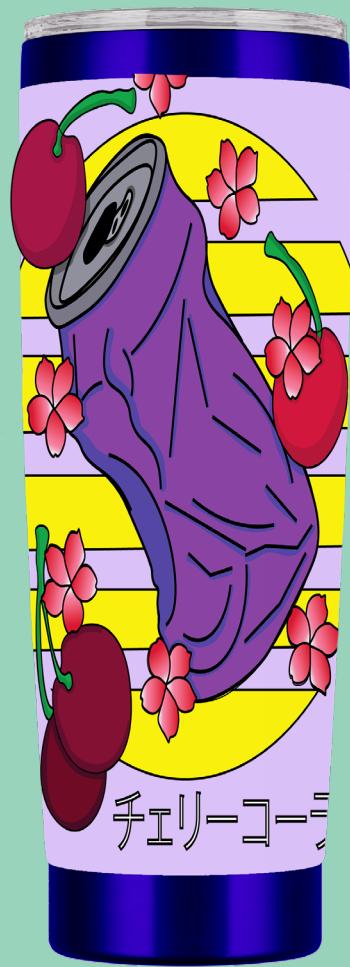

Adobe Illustrator

Adobe Photoshop

Autodesk Sketchbook

These logos and their accompanying promocional materials were created in collaboration with local business Yukeria Canas, the which is a resturant that focusses on serving tradicional salvadorian food in Mexicanos, San Salvador.

**Software:**

Adobe Illustrator  
Adobe Photoshop

The following flyers were made in collaboration with local small business Garufa Burger which is a resturant chain located in Queztaltepeque San Salvador.

**Software:**

Adobe Illustrator  
Adobe Photoshop
